Cisco Quantum-Safe Communications Roadmap

NIST Post-Quantum Cryptography (PQC) algorithms implemented across these platforms/protocols

Portfolio	Protocols planned by December 2026	Protocols planned by June 2027
Enterprise Routing (IOS-XE)	IKEv2 IPsec, DMVPN, FlexVPN, SD-WAN IPsec, MACsec, SSH, TLS	TLS, DTLS, Authentication capabilities
Enterprise Switching (IOS-XE)	IPsec, MACsec, SSH, TLS	Additional TLS use cases
Wireless (IOS-XE)	TLS 1.3 updates for: RadSec, TACAS, LDAP Over-The-Air (OTA) Support for PQC with introduction of security profiles (Security profile 16 and 18 support)	dTLS updates for: RadSec, TACAS, LDAP, CAPWAP, VxLAN
IoT (IOS-XE)	IKEv2 IPsec, MACsec, SSH, TLS	
Data Center Networking (NX - OS)	SSH	MACsec, TLS*
Data Center Networking (Nexus Dashboard)		SSH, TLS*
Data Center Networking (ACI)		SSH, TLS - HTTPS/API* SSH - Device Access* , TLS - Internal/External communication*
Service Provider (IOS - XR)	MACsec, SSH, TLS	
Firewalls		IPSec, SSH and TLS Decryption
Secure Client		IPsec
Catalyst Center		TLS, SSH and SFTP (Hybrid)
Webex	TLS and MLS for Webex App and Devices supporting end-to-end encrypted meetings	
Meraki Dashboard		TLS implemented in Secure OS, NGINX, and Envoy Gateway; hybrid configuration for secure management communications
Splunk	Hybrid PQC capabilities for all DoD IL5 authorized Splunk cloud offerings	
ThousandEyes		TLS for agent communications and APIs/application access, PQC-enabled signing for all ThousandEyes Agents
Identity Services Engine		RADIUS, EAP, TACACS, HTTPS (critical services), LDAPS, IPsec, SSH
Duo		TLS with fallback options to support systems that are not yet updated in customer environments

Cisco Quantum-Safe Product Announcements (Cisco Live US 2026)

NIST Post-Quantum Cryptography (PQC) algorithms implemented across these platforms/protocols

Portfolio	Planned Products / Platforms	Quantum- Safe Communications	Quantum- Safe Products
Enterprise Routing (IOS-XE)			
	New Product Launches: Cisco Secure Router 8131H, 8151H-C, 8211, 8221, 8221L, 8225, 8650,Cisco 8255 Secure Router Node (Unified Edge)	Core	Core
Enterprise Switching (IOS-XE)			
	C9550 Fixed Core Switches, C9350 Fixed Access Switches	Core	Core
Enterprise Wireless (IOS-XE)			
	Future Shipments of: CW9800H1, CW9800H1-MCG, CW9800H2, CW9800M, CW9800L, CW9800L-MCG	Core	Core
Data Center Networking (NX-OS)			
	N9300 Fixed Switch (P200 based)	Core	Core
Service Provider (IOS-XR) —Software Release Only			
	• Cisco 8000, NCS5700 (excluding NCS57C3), NCS540 series (excluding N540-ACC-SYS, N540X-ACC-SYS, N540-24Z8Q2C-SYS) • EAP-TLS for MACsec on all MACsec capable IOS-XR platforms	Core	—
Firewalls & VPNs			
	• Future PQC SKUs for 1200, 3100, 4200 & 6100	Core	Core
