FortiGuard

Security Services

Where AI helps defenders

Threats

Today's Attack Surface

How AI raises the risk

AI SECURITY

Inline AI Security

AI Guardrails for prompt inspection inline at the network edge without needingadditional infrastructure add ons. Simple to adopt as a service to FortiGate,FortiSASE, FortiWeb, FortiClient, ...

COMBAT THE AI RISK

Model-aware inspection that scores prompt intent and enforces AI Guardrailscovering OWASP Top10, stopping harmful prompts, injection & jail breaking attacks. Also, obfuscates any proprietary or sensitive data before it can reach external AI models.

WHAT TO BUY: **FortiGuard Enterprise Bundle**

AGENTIC AI

Prompt & Agent Abuse

Harmful instructions, risky tool use and agents acting outside their intended scope.

HOW AI RAISES THE RISK

Indirect prompt injection hidden in web pages, files and emails can hijack autonomous agents into running tools, moving data or escalating privilege — nomalware required.

DATA & SAAS SECURITY

Data & SaaS Posture: FortiGuard AI Data Protection Services

Inline inspection protecting GenAI & SaaS apps with predefined pattern libraries, custom patterns and Image/OCR detection to prevent proprietary or sensitive data leaks when users leverage sanctioned or unsanctioned AI tools and applications.

COMBAT THE AI RISK

Logs or blocks sensitive uploads and prompts to public AI tools (Shadow AI); context-aware classification including Confidence Levels and proximity search can extend coverage to paraphrased data that exact patterns miss

WHAT TO BUY: **FortiGuard Enterprise Bundle**

DATA

Data Loss / Exfiltration

Source code, product designs, end-user data (PII) or any customer-sensitivedata leaving the organization, by accident or by intent.

HOW AI RAISES THE RISK

Employees paste proprietary code and customer records into public AI tools;agents with broad access move data at machine speed, and AI can rewrite orencode content to slip past exact-match rules..

AI USAGE

Shadow AI Visibility & Control

Complete visibility and control of both sanctioned and unsanctioned AIapplications across all ports and protocols. Identifies thousands of cloud &network applications, helping teams support approved tools while spotting andgoverning apps that may introduce risk. Also recognizes & enforces use ofcorporate accounts.

COMBAT THE AI RISK

Extends visibility to generative AI applications and services, helping securityteams discover where AI tools are being used and reduce shadow AI risks.Application Control detects Model Context Protocol (MCP) tools and Agent-to-Agent (A2A) traffic, helping organizations monitor the sprawl of AI agents in thenetwork.

WHAT TO BUY: **FortiGuard Enterprise Bundle**

SHADOW AI

Unsanctioned AI Use

Use of unsanctioned applications, which might allow sensitive or proprietarydata to be sent to the cloud, stored in geographies undesired, and give accessto such data to foreign governments or organizations.

HOW AI RAISES THE RISK

AI tools greatly simplify end-to-end daily tasks for all types of roles &responsibilities. The desire to optimize time, take short-cuts and deliver betterresults all push users to seek out these tools. Enabling corporate + sanctionedtools is necessary in today's environments, starting with complete visibility & control.

CORE NGFW

Network, File, Web & Content Security

- **Inline Malware Prevention (ILMPS)**: Real-time, sub-second verdicts on unknown files and zero-day threats across all NGFWs, with built-in MITRE ATT&CK® mapping.
- **Web & DNS Security:** URL filtering (incl. email links), IP reputation and anti-botnet/C2, DNS filtering (DNSSEC, encrypted DNS, tunneling, flood/DDoS), plus YouTube video filtering.
- **File Content: Inspection of files in transit;** unknown files escalate to cloud-based sandbox analysis for zero-day detection (ATP and UTP bundles).
- **Network Intrusion (FortiGuard IPS):** Deep packet inspection and protocol analysis block known exploits, protocol abuse and lateral movement in real time.

COMBAT THE AI RISK

AI/ML and behavioral detection across files, traffic, web and DNS keeps pacewith machine-generated variants and never-before-seen patterns — judgingthreats by what they do rather than what they look like, and feeding ATT&CK-mapped, AI-assisted triage to shorten response.

WHAT TO BUY: **FortiGuard Enterprise or NGFW Bundle**

NETWORK · WEB · EMAIL · DNS · PAYLOADS

Conventional Attack Surface

- **0-day Threats (Unknown Threats):** Files and payloads with no existing signature or reputation history.
- **Phishing / Spam · Malicious URL (Web · Email · DNS):** Credential lures, malicious links, botnet callbacks and DNS-layer abuse.
- **AI-Powered Malware & Ransomware (Payloads):** Malicious files and ransomware delivered through web, email and file shares.
- **Vulnerabilities & Exploits (Network):** Attacks on exposed services, unpatched systems and network protocols.

HOW AI RAISES THE RISK

AI compresses the time from disclosure to weaponized exploit; LLMs generatefluent, personalized phishing and clone sites at scale; and automated agentsscan, probe and attack exposed services 24×7.

What you need:

Choose your coverage in three steps.
Start with the bundle, then add service packs.

1 Choose your base bundle

RECOMMENDED

Pick one

Enterprise AI Service Bundle

Full coverage for modern AI-era networks — everything in NGFW, **plus** AI control, data protection, 0-day prevention and migrationsupport.

CORE PROTECTION

- 24×7/365 Premium Support
- IPS
- Botnet / C&C
- URL & DNS Filtering
- Malicious Certificates
- Anti-Malware
- Post-transfer Sandbox
- **Inline Cloud Sandbox** (0-day prevention)

AI VISIBILITY — FULL

- Shadow AI Detection
- MCP Protocol Detection
- LLM Detection
- Agent Detection

DATA PROTECTION

- Data-in-motion Inspection
- Image/OCR Inspection
- DLP Pattern Library
- GenAI & SaaS App DLP

MIGRATION

- FortiConverter Upgrade & Conversion Support

NGFW Service Bundle

Essential next-generation firewall protection.

CORE PROTECTION

- 24×7/365 Premium Support
- IPS
- Botnet / C&C
- URL & DNS Filtering
- Malicious CertificateDetection
- Anti-Malware
- Post-transfer Sandbox (0-day detection)

AI VISIBILITY — PARTIAL ONLY

- Shadow AI Apps · MCP Protocol Detection

NOT INCLUDED — UPGRADE TO ENTERPRISE FOR:

- Inline Cloud Sandbox (0-day prevention)
- Full Shadow AI / LLM / Agent detection
- Data-in-motion & Image/OCR inspection
- DLP Pattern Library · GenAI & SaaS DLP
- FortiConverter upgrade & conversion supportn

Choose Enterprise
for full Shadow AI, DLP & conversion support

2 Add AI Services

RECOMMENDED

Recommended add-ons

AI Inspection Services

- Inline AI Prompt Inspection
- Inline AI Guardrail Service

RECOMMENDED

Agentic AI Services

- Agentic AI Operations Service
- FortiAI Inference Service
- MCP Tools, Skills and Secure MCP Access

3 Optional - by deployment

Add if it fits

SD-WAN & NOC Operations

- SD-WAN Underlay & Overlay Monitoring
- SD-WAN Overlay Orchestration
- SASE Secure Private AccessConnector
- FortiSASE Starter Kit
- IoT Discovery & Vulnerability Correlation
- Security Rating · OutbreakCorrelation
- FortiGate Cloud (1-year log retention)
- FortiTelemetry Cloud

OT Security

- OT Discovery & Vulnerability Correlation
- OT Application Control & IPS
- OT Virtual Patching

BUNDLES

	SKU
Hardware and Service Bundles	
FG-70G plus Enterprise AI Service Bundle	FG-70G-BDL-809-DD
FG-70G-plus NGFW Service Bundle	FG-70G-BDL-950-DD
Service Bundles	
Enterprise AI Service (Application Control including Shadow AI, LLM Detection, Agent Detection, IPS, Data Protection, Inline Sandbox, Antispam, AI-Based Malware Prevention, URL/DNS/Video Filtering, FortiConverter, IoT Security, Security Rating, and FortiCare Premium)	FC-10-GT70G-809-02-D
NGFW Service (Application Control including Shadow AI, LLM Detection, Agent Detection, IPS, Advanced Malware Protection, URL, DNS & Video Filtering, Antispam Service, and FortiCare Premium)	FC-10-GT70G-950-02-DD
Add On AI Services	
FortiGuard Inline AI Security	FC-10- GT70G -1435-02-DD
FortiGuard Agentic AI Operations Service	FC-10- GT70G -1428-02-DD
Optional by Deployment	
SDWAN	
SD-WAN Service Bundle (SD-WAN Underlay & Application Monitoring, Overlay Orchestration, FortiSASE 5-user starter kit, SASE Secure Private Access (SPA) Connector, FortiGuard SD-WAN SLA Database Updates, FortiTelemetry Cloud, IoT Security, Security Rating, 1-Year Cloud Log Retention, and FortiCare Premium).	FC-10-GT70G-1329-02-DD
OT	
FortiGuard OT Security Service (OT dashboards and compliance reports, OT application and service detection, OT vulnerability correlation, OT virtual patching, OT signatures - Application Control and IPS rules)	FC-10-GT70G-159-02-DD
